

Job Opportunity Posting

POSITION TITLE	Junior Programmer
DEPARTMENT	Programming
LOCATION	Sudbury
REPORTS TO	Programming Manager

COMPANY

Vianet is a well-established, customer-oriented telecommunications company located across Ontario. Our passionate employees use a wide range of technologies to provide Residential, Small Business, and Enterprise level services to meet the unique needs of our customers. We are uniquely positioned to offer the best possible internet access in both urban and rural locations through a competitive mix of our own and third-party infrastructure.

JOB SUMMARY

Do you have a diploma in Computer Science, Programming or similar field and want to apply your experience and education on a full-time basis? Are you interested in a team environment whose focus is helping both colleagues and customers get the information and resources they need when they need it in a way that is intuitive, easy to use, and which flexes your creative muscles? If you're passionate about creating efficient and scalable portals, platforms, or systems we might be the right fit for you.

The Programming Department staff at Vianet have a passion for creating tools and interfaces that simplify and enhance the day to day experiences of colleagues and customers. Ours is a highly collaborative, creative, and positive environment where ongoing learning is highly encouraged and always shared between group members. We are passionate about cutting-edge web-based technology and are continually in search of new tools and resources but are also very comfortable working with legacy code and tools.

POSITION RESPONSIBILITIES

- Able to develop web applications using a variety of programming languages such as Perl, PHP and Ruby paired with front-end applications developed using HTML5, CSS, JavaScript.
- Produce secure and responsive code for internal and external use.
- Work closely and collaborate with the Programming department on daily tasks including design, improvements to and maintenance of existing web applications.
- Responsible for day to day support and troubleshooting of web applications used by staff and customers.

- Interact with management and other staff to support and implement new projects and features.
- Maintain an up-to-date knowledge of web-based design principles and industry standard security practices by proactively and independently researching industry trends, big data techniques, and opportunities for innovative programmatic solutions.
- Ensure code quality through robust troubleshooting and bug testing procedures.

EXPERIENCE/KNOWLEDGE REQUIRED

- Post secondary education diploma (Computer Systems Technology, Computer Programming (Internet of Things), Mobile Application Development, or another similar field.)
- 1-3 years previous experience developing efficient, scalable code is preferred.
- Solid understanding of web application development with a good foundation in both back-end code and front-end UI design.
- Well versed in and passionate about the use of modern programming and web technologies, such as Perl, Ruby, HTML5, CSS, Javascript, PHP, jQuery, RESTful design, AJAX, and Bootstrap.
- Experience with best practices involving security, data sanitization, and data integrity, with respect to user input and storage.
- Knowledge of Windows and Linux environments, including command line interfaces and UI/UX prototyping tools.
- Solid written and verbal communication skills.
- Excellent analytical and problem-solving abilities with acute attention to detail.
- Excellent time management skills with the ability to take initiative, multi-task and prioritize work in a fast-paced environment.
- Having knowledge or experience with databases such as MySQL or PostgreSQL would be an asset.
- Able to work with and maintain legacy code.

HOURS OF WORK

Monday to Friday
8:30 AM – 5:00 PM
40 hours per week

HOW TO APPLY

If this is a job opportunity you are interested in applying for please submit your resume in confidence via email to humanresources@vianet.ca or by fax 705-222-2800 referencing “Junior Programmer - Vacancy” in the subject line. We thank all applicants in advance for your interest in applying, however because of time constraints, only those under consideration will be contacted.
